

Bionerds: Biology Workshops for Kids

Bionerds offers fun, hands-on biology workshops for kids K-8th grades in many cities throughout Orange County. We have after-school, in-class, home school, camps, party, field trips, and Girl Scouts programs. Our curriculum covers vast biology topics from insects, plants, human, genetics, microorganisms, and more. Your child will have up-close experiences with live organisms, perform biology experiments/dissections (for older students), and handle biology equipment such as microscopes. **Bionerds is honored to be voted Orange County's Best Science/Tech Camp 2015-2016 by Parenting OC Magazine families.** We are excited to be here in Newport Beach!

Insects: Bug Me if You Dare!

Come and join this fun and hands-on biology workshop for kids! Learn about the amazing bugs around us such as beetles, butterflies, fruit flies, crickets, ladybugs, and more. Get up close and personal with live bugs using a microscope on some topics and perform cool biology experiments on the others.
